

VIKING BALUSTRADE WITH VERTICAL BALUSTERS

Viking Balustrade is a colour-coated aluminium railing system, which is strong and elegant - with minimal maintenance.

Options for vertical infill balusters; 17mm, 60mm or 123mm in either a full height baluster or split rail baluster.

Features include:

- Cast aluminium caps colour coated to match hand rail
- Exclusive classic round or square hand rail options
- Non-weld hidden fastening system
- A 99mm clearance between balusters for safety
- A recessed bottom rail to locate and secure balusters
- Cast aluminium caps colour coated to match hand rail
- Secure inter-locking posts for modular installation
- Heavy duty base plate, durable aluminium construction
- Custom-made to suit most applications
- Engineered and tested to comply with NZ Building Code

Ideal applications for Viking Balustrade include:

- Decks
- Stairways
- Balconies
- Handrails
- Pool Surrounds
- Boundary Fences
- Pool Gates
- Stairway Gates
- Commercial properties
- Residential housing
