

## GLASS BALUSTRADE

A glass balustrade is a modern and stylish safety barrier, retaining views while providing security and safety for staircases, balconies and decks.

### FRAMELESS

Your frameless glass balustrade maximises the perception of space through a modern minimalist appearance and can be post mounted, face fixed or channel set.

### SEMI FRAMELESS

A cost effective yet stylish option that maintains safety without compromising views.

Posts and handrails are powdercoated to a high quality finish and we use only stainless steel fixings.

### Ideal applications for Glass Balustrade include:

- Decks
- Stairways
- Balconies
- Handrails
- Pool Surrounds
- Boundary Fences
- Stairway Gates
- Commercial properties
- Residential housing
