

SECTOR™

Lots of vehicles coming in and out? You need something that goes up and down. Fast!

The **SECTOR** is powered by a beefy custom-built DC motor and gearbox and can raise up to a three metre boom pole at a blistering pace of less than 1.2 seconds.

Operating slightly slower, the **SECTOR** will effortlessly raise up to a six metre pole smoothly and reliably.

The **SECTOR** lives fast – but it most definitely doesn't die young. Designed for tough, high-volume usage, it will work all day, it will work all night - lasting for millions of cycles.

Add full battery backup, and the **SECTOR** is always at your service.

Main features

Rapid opening

Lots of vehicles coming in and out? You need something that goes up and down. Fast!

The **SECTOR** is ideal for high-volume applications and puts a manically ticking metronome to shame – raising a three metre pole in under 1.2 seconds and lowering it just as quickly.

Battery backup

With our 12V battery driven motor, your security is never compromised. The **SECTOR** will continue to stay on, even when the power is off – beating up and down 3000 times during a 24 hour power failure before it needs a recharge. If you're expecting no power for a while, the built-in mains failure detection can be set to keep the barrier raised under power failure conditions.
